MARKET LEADER IN LIFTING EQUIPMENT SALES AND AFTER MARKET CARE IN WEST AND CENTRAL AFRICA

Pateron Simons is a UK-based company offering lifting and handling equipment sales and servicing throughout West and Central Africa via subsidiaries in Ghana, Nigeria, Cameroon and Togo.

Incorporated in 1948 the company now has over 70 years' experience in the procurement of equipment and spare parts for African markets, specialising in materials handling equipment.

LIFTING SOLUTIONS: THE FULL PACKAGE

Pateron Simons is the official dealer for a range of world-class lifting equipment manufacturers. We service a wide range of sectors across the region: ports & terminals, mining, construction, manufacturing and oil & gas.

Our customers have come to rely on our expertise, as well as our experience in the region, to help them select the right machine and service package for the job.

Our approach is solutions oriented. We challenge perfectly suits the needs and circumstances of our customers' business by providing a range of services all of which we offer on-the-ground throughout West and Central Africa.

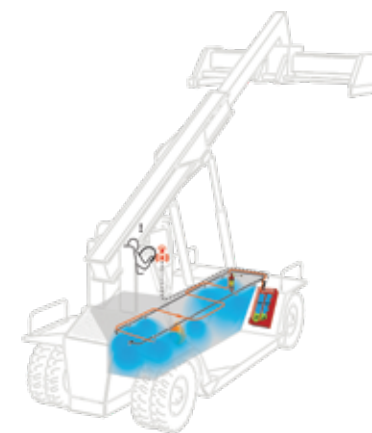

Our Range of Solutions includes:

- New & Used Plant Sales
- Rental & Leasing
- LifeTime Servicing, Inspection and Maintenance Programmes
- Fully Equipped Parts and Spare Parts Warehouses
- Operator Familiarisation and Driver Training
- Equipment Rebuild

FOGMAKER

Don't compromise with safety! Life-saving protection for vehicles and enclosed spaces with Fogmaker fire suppression systems. The Fogmaker system is designed for vehicles, machines, and other enclosed spaces, and works with high-pressure water-based mist that chokes a fire and cools the area to prevent re-ignition. The system attacks all three sides of the fire triangle through displacing oxygen, cooling the heat, and smothering the fuel.

- DActive 24/7 – No power supply needed for activation or system monitoring
- Minimal Downtime – Quick recharging for minimal downtime
- Low TCO – Low Total Cost of Ownership through quick and easy maintenance
- Outstanding Effect – Choking and cooling times at least double compared to other certified systems, which prevents reignition and gives time for safe evacuation. (SP4912 method test result)

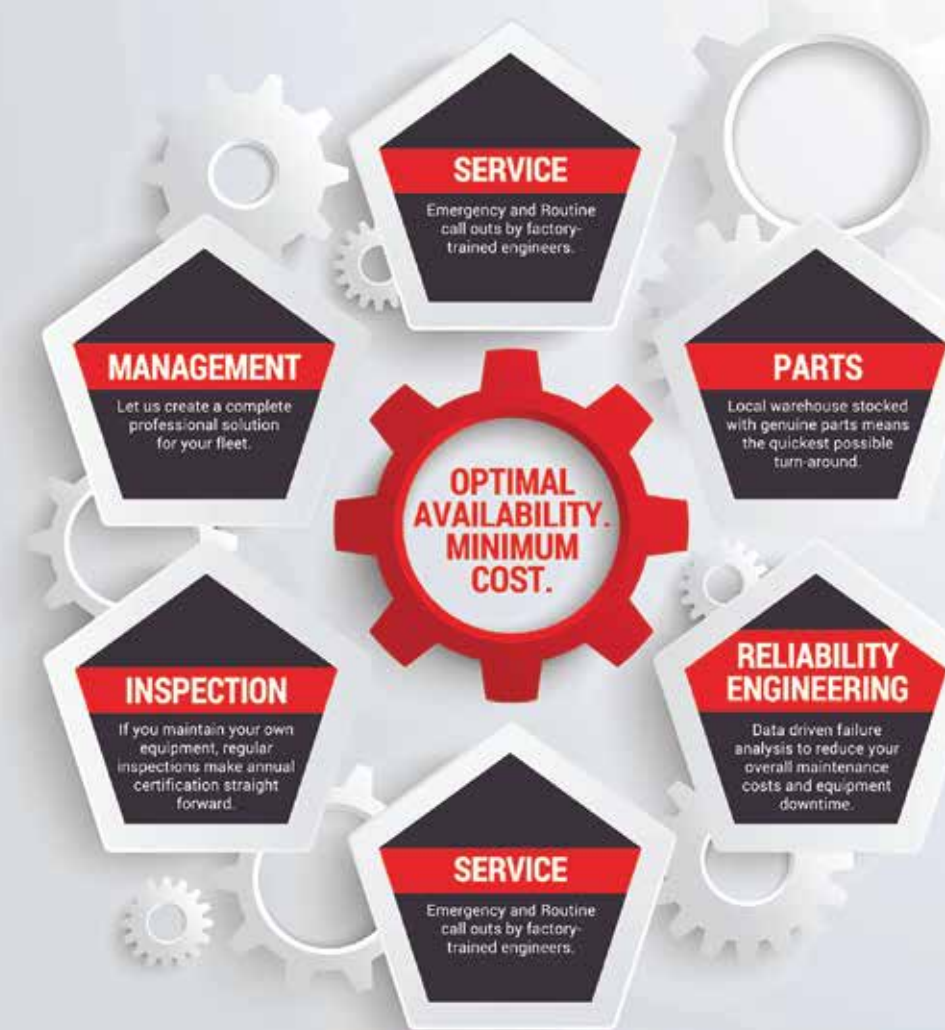

+ KEMPOWER

Kempower designs and manufactures advanced DC fast charging solutions for electric vehicles and machinery, tailored for both mining and port applications. Driven by a passion for e-mobility and a deep understanding of the charging ecosystem, Kempower combines technical expertise with a practical, hands-on approach.

Product development and manufacturing are based in Finland, with a strong emphasis on local sourcing. The company supports a broad range of transportation sectors, including personal vehicles, commercial fleets, marine applications, and heavy-duty industries such as mining and port operations. Backed by the Kemppi Group's 70-year legacy in refining DC power technology, Kempower sets a high standard in both engineering performance and user-centric design.

- DC fast charging solutions for electric vehicles and machines
- Designed for heavy-duty use in both mining and port environments
- Quality engineering and user-focused design
- Committed to reshaping the container port landscape

HOIST & RIGGING GEAR

In partnership with Lifting Gear UK, we now also sell a wide range of hoist and rigging gear that can be ordered direct from our catalogue and delivered throughout the region. We can also supply and restock remote sites with fully equipped rigging containers. Ask your sales consultant today.

THERE WHERE YOU NEED US

In the rigorous African environment maintenance, easily accessible spare parts and experienced technicians are the difference between down-time and profit. Through our local subsidiaries, and on-the-ground team of factory-trained engineers ensures that our customers' machines continue to deliver, no matter where in West and Central Africa they are.
